

NOTES

The Oxford University Press has arranged to continue the Quarterly Journal of Mathematics and The Messenger of Mathematics as a single journal, to be called The Quarterly Journal of Mathematics (Oxford Series). The editors will be T. W. Chaundy, E. G. C. Poole, and W. L. Ferrar.

The former students of Professor E. L. Lindelöf, of the University of Helsingfors, have published a volume in his honor entitled *Commentationes in Honorem E. L. Lindelöf a Discipulis Editae*.

The Mathematical Society of Kharkow passed its fiftieth anniversary in September, 1929. A meeting was held to celebrate this anniversary on June 26, 1930, during the session of the Congress of Mathematicians of the USSR held at Kharkow. Foreign mathematical societies were invited to send delegates.

The Sociedad Científica "Antonio Alzate" will hold a scientific congress in the City of Mexico, September 9–14, 1930. There will be a section devoted to the mathematical sciences. Foreign mathematicians are invited to attend.

The Reale Accademia Petrarca di Lettere, Scienze ed Arti has presented a gold medal to Professor Francesco Severi.

The class of physical sciences of the Royal Academy of Bologna announces the following subjects for its Adolfo Merlani prize: *The iteration of rational functions; Conformed representation*. Competition closes December 31, 1930.

Cambridge University has awarded Smith's prizes to R. E. A. C. Paley and J. A. Todd, and Rayleigh prizes to W. R. Andress and L. C. Young, all of Trinity College.

The Duddell medal of the London Physical Society for 1930 has been awarded to Professor A. A. Michelson, of the University of Chicago. This medal is given for the invention or design of scientific instruments or the discovery of material used in their construction.

The Royal Society of Edinburgh has awarded its James Scott prize for the period 1927–30 to Professor Niels Bohr.

Dr. A. T. Doodson, of the Liverpool Observatory and Tidal Institute, has been awarded the Gray Navigation Prize of the Society of Arts for his work on the analysis and prediction of tidal currents.

The Daniel Guggenheim gold medal for aeronautics has been awarded to Professor Ludwig Prandtl, of the University of Göttingen, for "pioneer and creative work in the theory of aerodynamics."

The New York Academy of Sciences announces the following subject for its A. Cressy Morrison Prize I: *What may be proved from our present knowledge*
