

## JOURNALS PUBLISHED BY THE AMERICAN MATHEMATICAL SOCIETY

**Bulletin of the American Mathematical Society** is a bimonthly journal. In 1978 it will contain officially invited addresses presented before the Society, reviews of advanced mathematical books, and research announcements. Communications concerning the Bulletin should be sent to P. R. HALMOS, Dept. of Mathematics, University of California at Santa Barbara, Santa Barbara, CA 93106.

**Proceedings of the American Mathematical Society** is a monthly journal devoted entirely to research in pure and applied mathematics, principally to the publication of original papers of moderate length. A department called Shorter Notes was established for the purpose of publishing very short papers of an unusually elegant and polished character for which there is normally no other outlet. Papers in algebraic and differential topology should be sent to REINHARD E. SCHULTZ, Dept. of Mathematics, Purdue University, West Lafayette, IN 47907; in combinatorics and discrete mathematics to THOMAS H. BRYLAWSKI, Dept. of Mathematics, University of North Carolina, Chapel Hill, NC 27514; in commutative algebra to DAVID EISENBUD, Dept. of Mathematics, Brandeis University, Waltham, MA 02154; in complex variables and analytic number theory to W. E. KIRWAN, Dept. of Mathematics, University of Maryland, College Park, MD 20742 or to LAWRENCE A. ZALCMAN, Dept. of Mathematics, University of Maryland, College Park, MD 20742; in differential equations to RICHARD K. MILLER, Dept. of Mathematics, Iowa State University, Ames, IA 50010; in functional analysis and operator theory to CHANDLER DAVIS, Dept. of Mathematics, University of Toronto, Toronto M5S 1A1, Canada or to RONALD G. DOUGLAS, Dept. of Mathematics, State University of New York at Stony Brook, Stony Brook, NY 11790 or to ROBERT R. PHELPS, Dept. of Mathematics, University College London, Gower Street, London WC1E 6BT, England; in general algebra to ROBERT W. WILSON, Dept. of Mathematics, Rutgers University, New Brunswick, NJ 08903; in general analysis to RICHARD R. GOLDBERG, Dept. of Mathematics, Vanderbilt University, Nashville, TN 37235; in general topology to DAVID J. LUTZER, Dept. of Mathematics, Texas Tech University, Lubbock, TX 79409 or to THOMAS A. CHAPMAN, Dept. of Mathematics, University of Kentucky, Lexington, KY 40506; in geometry to JOSEPH A. WOLF, Dept. of Mathematics, University of California at Berkeley, Berkeley, CA 94720; in group theory to NORMAN BLACKBURN, Dept. of Mathematics, The University, Manchester M13 9PL, England; in logic and foundations to PAUL C. EKLOF, Dept. of Mathematics, University of California at Irvine, Irvine, CA 92717; in probability and other fields to NARESH JAIN, School of Mathematics, 127 Vincent Hall, University of Minnesota, Minneapolis, MN 55455; in real variables to RICHARD A. HUNT, Dept. of Mathematics, Purdue University, Lafayette, IN 47907. All other communications should be addressed to JOSEPH A. WOLF at the above address.
