The analysis of linear partial differential operators. IV, by Lars Hörmander, Grundlehren der mathematischen Wissenschaften, Vol. 275, Springer-Verlag, Berlin, Heidelberg, New York, Tokyo, 1985, vii + 351 pp., $45.00. ISBN 3-540-13829-3

These two volumes complete L. Hörmander's treatise on linear partial differential equations. They constitute the most complete and up-to-date account of this subject, by the author who has dominated it and made the most significant contributions in the last decades.
