On Saturday morning before the session of the Society there were two more addresses of the Symposium: Asymptotic properties of the likelihood ratio test by Professor Wald and On a class of tests equivalent in the limit to the likelihood ratio tests by Professor Nevman. The presiding officers of the Symposium sessions were Professor C. C. Craig, Dean M. H. Ingraham, Professors Sewall Wright and A. H. Copeland. The Symposium addresses contributed greatly to the interest of the Society meetings. On Friday evening those attending the meetings were the guests of the University of Notre Dame at a buffet supper.
