

# Contents

**P. ANDREOLETTI**

On the estimation of the potential of Sinai's RWRE ..... 121

**F. V. LABRA, R. AOKI, V. GARIBAY and V. H. LACHOS**

Skew-normal distribution in the multivariate null intercept measurement error model ..... 145

**J. LU, E. J. STANEK III and E. PULEO**

Estimating the population mean when some responses are missing ..... 171

**J. A. ACHCAR, E. R. RODRIGUES and G. TZINTZUN**

Modelling interoccurrence times between ozone peaks in Mexico City in the presence of multiple change points ..... 183

**H. P. SINGH and S. KUMAR**

Combination of regression and ratio estimate in presence of nonresponse ..... 205

**M. I. LORA and J. M. SINGER**

Beta-binomial/gamma-Poisson regression models for repeated counts with random parameters ..... 218
