

Contents

S. NKURUNZIZA

A simple formula for asymptotic distributional risk of some estimators 113

V. L. SILVA and R. H. LOSCHI

Test, estimation and model comparison for the meiosis I nondisjunction fraction in trisomies 123

C. S. WITHERS and S. NADARAJAH

Cornish–Fisher expansions for sample autocovariances and other functions of sample moments of linear processes 149

R. PRABHAKAR RAO, B. SUTRADHAR and V. N. PANDIT

GMM versus GQL inferences in semiparametric linear dynamic mixed models 167

S. NADARAJAH

The gamma beta ratio distribution 178

J. A. FAJARDO, R. R. RÍOS and L. A. RODRÍGUEZ

Properties of convergence of a fuzzy set estimator of the density function 208
