

# Contents

## **F. WEI**

Group selection in high-dimensional partially linear additive models.....219

## **Z. ZHANG and L. WANG**

A note on the robustness of a full Bayesian method for nonignorable missing data analysis.....244

## **S. LAURENT**

Some Poisson mixtures distributions with a hyperscale parameter.....265

## **J. A. FÚQUENE and M. DELGADO**

A note on Bayesian robustness for count data.....279

## **M. A. SANFINS and G. VALLE**

On the copula for multivariate extreme value distributions.....288

## **C.-S. LI**

Identifiability of zero-inflated Poisson models ..... 306

## **J. MAZUCHELI, F. LOUZADA and J. A. ACHCAR**

The polysurvival model with long-term survivors ..... 313
