

Contents

Contributions to the Special Volume of the XIX Brazilian School of Probability

Note from the Editor	413
Preface	414

A. LAMBERT

Probabilistic models for the (sub)tree(s) of life.....	415
--	-----

F. COMETS and A. CORTINES

Finite-size corrections to the speed of a branching-selection process.....	476
--	-----

Articles

A. PAK

Statistical inference for the parameter of Lindley distribution based on fuzzy data	502
---	-----

A. Z. AFIFY, G. M. CORDEIRO, N. SHAFIQUE BUTT, E. M. M. ORTEGA and A. K. SUZUKI

A new lifetime model with variable shapes for the hazard rate.....	516
--	-----

P. G. SILVA, A. H. M. A. CYSNEIROS and G. M. CORDEIRO

Bias correction in power series generalized nonlinear models	542
--	-----

M. ZEVALLOS and L. K. HOTTA

A note on curvature influence diagnostics in elliptical regression models.....	561
--	-----

K. K. DEY and S. BHATTACHARYA

A brief tutorial on transformation based Markov Chain Monte Carlo and optimal scaling of the additive transformation	569
--	-----

L. M. RONDON and H. BOLFARINE

Bayesian analysis of flexible measurement error models	618
--	-----

T. R. BOUCHER

Boosting, downsizing and optimality of test functions of Markov chains	640
--	-----

D. A. ZUANETTI and L. A. MILAN

Second-order autoregressive Hidden Markov Model.....	653
--	-----
