

Contents

J. A. ACHCAR, E. A. COELHO-BARROS and G. M. CORDEIRO

Beta generalized distributions and related exponentiated models: A Bayesian approach.....1

Z. TAN

Precise asymptotics for products of sums and U-statistics.....20

A. J. LEMONTE, W. BARRETO-SOUZA and G. M. CORDEIRO

The exponentiated Kumaraswamy distribution and its log-transform 31

L. P. R. PIMENTEL

On some fundamental aspects of polyominoes on random Voronoi tilings.....54

C. D. PAULINO, G. L. SILVA and M. BRANCO

A fully Bayesian parametric approach for cytogenetic dosimetry 70

W. BARRETO-SOUZA and A. B. SIMAS

The exp- G family of probability distributions 84

L. M. CASTRO, E. SAN MARTÍN and R. B. ARELLANO-VALLE

A note on the parameterization of multivariate skewed-normal distributions .. 110
