

Contents

A. ASGHARZADEH, H. S. BAKOUCH, S. NADARAJAH and F. SHARAFI A new weighted Lindley distribution with application	1
V. NAGARAJAH, B. C. SUTRADHAR, V. JOWAHEER and A. BISWAS Inferences in median regression models for asymmetric longitudinal data: A quasi-likelihood approach	28
L. E. B. SALASAR, J. G. LEITE and F. LOUZADA Likelihood-based inference for population size in a capture–recapture experiment with varying probabilities from occasion to occasion	47
L. PERICCHI and C. PEREIRA Adaptative significance levels using optimal decision rules: Balancing by weighting the error probabilities	70
N. NEMATOLLAHI and M. JAFARI JOZANI On risk unbiased estimation after selection	91
A. S. NASTIĆ, M. M. RISTIĆ and M. S. DJORDJEVIĆ An INAR model with discrete Laplace marginal distributions	107
C. J. ALBERS, O. J. W. F. KARDAUN and W. SCHAAFSMA Assigning probabilities to hypotheses in the context of a binomial distribution	127
M. CRUZ-LÓPEZ and A. MURILLO-SALAS A recurrent random walk on the p -adic integers	145
