

Contents

E. PELLE and P. F. PERRI

Improving mean estimation in ranked set sampling using the Rao regression-type estimator 467

Z. SHARIFONNASABI, M. H. ALAMATSAZ and I. KAZEMI

A large class of new bivariate copulas and their properties 497

C. S. FERREIRA, F. VILCA and H. BOLFARINE

Diagnostics analysis for skew-normal linear regression models: Applications to a quality of life dataset 525

B. EL ONSY, K. ES-SEBAIY and D. NDIAYE

Parameter estimation for discretely observed non-ergodic fractional Ornstein–Uhlenbeck processes of the second kind 545

J. FIGUEROA-ZÚÑIGA, J. M. F. CARRASCO, R. ARELLANO-VALLE and S. L. P. FERRARI

A Bayesian approach to errors-in-variables beta regression 559

J. B. KADANE and Z. WANG

Sums of possibly associated multivariate indicator functions: The Conway–Maxwell–Multinomial distribution 583

V. SISKÓ, A. YAMBARTSEV and S. ZOHREN

A note on weak convergence results for infinite causal triangulations 597

J. ZHANG, Y. ZHOU, X. CUI and W. XU

Semiparametric quantile estimation for varying coefficient partially linear measurement errors models 616

A. BEN-HAMOU, Y. PERES and J. SALEZ

Weighted sampling without replacement 657

N. G. POLSON

On Hilbert’s 8th problem 670
