

# Contents

<b>A. LOGACHOV, O. LOGACHOVA and A. YAMBARTSEV</b> The local principle of large deviations for compound Poisson process with catastrophes .....	205
<b>G. BARRERA and S. LIU</b> A switch convergence for a small perturbation of a linear recurrence equation .....	224
<b>I. BEN-ARI, J. GREEN, T. MEREDITH, H. PANZO and X. TAN</b> Finite-memory elephant random walk and the central limit theorem for additive functionals .....	242
<b>J. I. H. BARAHONA-TORRES, P. C. MANRIQUE-MIRÓN and E. TREVIÑO-AGUILAR</b> Angle distribution of two random chords in the disc: A sine law .....	263
<b>F. FREUND and A. SIRI-JÉGOUSSE</b> The minimal observable clade size of exchangeable coalescents .....	281
<b>Y. CUI, Q. LI and F. ZHU</b> Modeling $\mathbb{Z}$ -valued time series based on new versions of the Skellam INGARCH model .....	293
<b>M. M. TADDEO and P. A. MORETTIN</b> Estimation of semiparametric models with errors following a scale mixture of Gaussian distributions .....	315
<b>L. KANG, P. DAMIEN and S. WALKER</b> On a transform for modeling skewness .....	335
<b>R. ROOZEGAR, N. BALAKRISHNAN, A. BEKKER and A. JAMALIZADEH</b> On multivariate selection scale-mixtures of normal distributions .....	351
<b>M. ALIREZAEI DIZICHEH, E. ZAMANZADE and N. IRANPANAH</b> Efficient estimation of the odds using judgment post stratification .....	375
<b>G. JONGBLOED, F. VAN DER MEULEN and L. PANG</b> Bayesian estimation of a decreasing density .....	392
<b>L. AL-LABADI, V. PATEL, K. VAKILOROAYAEI and C. WAN</b> A Bayesian nonparametric estimation to entropy .....	421
