

# Contents

<b>E. LESAFFRE, H. QI, A. BANBETA and J. VAN ROSMALEN</b> A review of dynamic borrowing methods with applications in pharmaceutical research .....	1
<b>Q. XIONG, Z. PENG and S. NADARAJAH</b> Reinsurance premium estimation for heavy-tailed claim amounts .....	32
<b>E. RAMOS, O. A. EGBON, P. L. RAMOS, F. A. RODRIGUES and F. LOUZADA</b> Objective Bayesian analysis for the differential entropy of the Gamma distribution .....	53
<b>G. N. SINGH, D. BHATTACHARYYA and A. BANDYOPADHYAY</b> Some estimation procedures for Covid-19 suspected persons in a locality using randomized response model .....	74
<b>P. MAILLARD and O. WINTENBERGER</b> Moment conditions for random coefficient $AR(\infty)$ under non-negativity assumptions .....	88
<b>J.-G. PAK, M.-C. KIM and K.-G. KIM</b> Wellposedness of anticipated BSDEs with quadratic growth and unbounded terminal value .....	108
<b>M.-G. SIN, K.-Y. JI and S.-J. CHA</b> Properties of solution for fully coupled fractional mean-field forward-backward stochastic differential equation .....	128
<b>A. DESGAGNÉ</b> Efficient and robust estimation of tail parameters for Pareto and exponential models .....	148
<b>X. ZHANG and G. SHEN</b> Trajectory fitting estimation for nonlinear stochastic differential equations with reflection .....	177
