

DIFFERENTIAL AND INTEGRAL EQUATIONS

Volume 24, Numbers 11-12

November/December 2011

C. L. Frota, L. A. Medeiros, and A. Vicente , Wave equation in domains with non locally reacting boundary	1001
Norisuke Ioku , Brezis-Merle type inequality for a heat equation in two dimensions	1021
Jishan Fan and Tohru Ozawa , Local Cauchy problem for the MHD equations with mass diffusion	1037
Claudianor O. Alves, Luciana Rôze de Freitas, and Sérgio H. M. Soares , Indefinite quasilinear elliptic equations in exterior domains with exponential critical growth	1047
Yueping Lu, Guoju Ye, Wei Liu, and Ying Wang , Existence of solutions of the wave equation involving the distributional Henstock-Kurzweil integral	1063
Laurent Thomann , Low regularity for a quadratic Schrödinger equation on \mathbb{T}	1073
Saïma Khenissy , Nonexistence and uniqueness for biharmonic problems with supercritical growth and domain geometry	1093
Liamidi Leadi and Humberto Ramos Quoirin , Principal eigenvalue for quasilinear cooperative elliptic systems	1107
J.M. Rakotoson , A few natural extensions of the regularity of a very weak solution	1125
Philip Korman , Curves of equiharmonic solutions and solvability of elliptic systems	1147
Felipe Benitez and Elena I. Kaikina , Dirichlet problem for intermediate long-wave equation	1163
