

DIFFERENTIAL AND INTEGRAL EQUATIONS

Volume 34, Numbers 9-10

September/October 2021

Luyi Ma and Zhi-Cheng Wang, On the existence of cylindrically symmetric traveling fronts of fractional Allen-Cahn equation in \mathbb{R}^3	467
Pablo Pedregal, Existence under lack of convexity	491
Zhiguo Xu, Infinitely many solutions for the fractional $p&q$ problem with critical Sobolev-Hardy exponents and sign-changing weight functions	519
Manuel Fernando Cortez and Oscar Jarrín, Spatial behavior of solutions for a large class of non-local PDE's arising from stratified flows	539
