## DIFFERENTIAL AND INTEGRAL EQUATIONS

Volume 32, Numbers 5-6	May/June	2019
Ziheng Tu and Jiayun Lin, Life-span of semilinear wave equ scale-invariant damping: Critical Strauss exponent case		249
Yuanyuan Dan, Yongsheng Li, and Cui Ning Regularity and for the rough solutions of the derivative nonlinear Schrödinger	•	265
Eduardo Hernández and Jianhong Wu, Existence and un ${f C}^{1+lpha}$ -strict solutions for integro-differential equations with state delay	e-dependent	291
<b>Hiroyuki Tsurumi</b> , The stationary Navier-Stokes equations in invariant Triebel-Lizorkin spaces	_	323
Yin Huicheng and Zhang Lin, On the global existence and 3-D viscous cylindrical circulatory flows	·	337
Kazuyuki Doi and Shoji Shimizu, Explicit solutions for a sysnonlinear Schrödinger equations with delta functions as initial		359
