

# ILLINOIS JOURNAL OF MATHEMATICS

Volume 52, Number 3

FALL 2008

---

<b>Yoshimichi Ueda</b> , Remarks on HNN extensions in operator algebras.....	705
<b>Ken-ichiroh Kawasaki</b> , On finiteness properties of local cohomology modules over Cohen–Macaulay local rings.....	727
<b>Adam Osękowski</b> , Sharp LlogL inequalities for differentially subordinated martingales and harmonic functions.....	745
<b>Changyou Wang and Yifeng Yu</b> , Aronsson’s equations on Carnot–Carathéodory spaces.....	757
<b>Werner Bley and Manuel Breuning</b> , Exact algorithms for $p$ -adic fields and epsilon constant conjectures.....	773
<b>Oscar Blasco and Sandra Pott</b> , Embeddings between operator-valued dyadic BMO spaces.....	799
<b>Giovanni Peccati and Marc Yor</b> , Burkholder’s submartingales from a stochastic calculus perspective.....	815
<b>Osamu Saeki and Yasushi Takeda</b> , On 2-knots with total width eight.....	825
<b>Marianty Ionel and Maung Min-Oo</b> , Cohomogeneity one special Lagrangian 3-folds in the deformed and the resolved conifolds.....	839
<b>Lynette J. Boos</b> , A characterization of $C(K)$ among function algebras on a Riemann surface.....	867
<b>Czesław Bagiński and Agnieszka Stocka</b> , Finite groups with $L$ -free lattices of subgroups.....	887
<b>Rahim Moosa and Anand Pillay</b> , On canonical bases and internality criteria.....	901
<b>Dimitrios Betsakos</b> , Symmetrization and harmonic measure.....	919
<b>Geoff Goehle</b> , Group bundle duality.....	951
<b>A. Leibman</b> , Ergodic components of an extension by a nilmanifold.....	957
<b>Ville Suomala</b> , Upper porous measures on metric spaces.....	967
<b>Yves Martinez-Maure</b> , A Sturm-type comparison theorem by a geometric study of plane multihedgehogs.....	981
<b>Frédéric Bayart, Sophie Grivaux and Raymond Mortini</b> , Common bounded universal functions for composition operators.....	995
<b>Paul S. Bourdon and Joel H. Shapiro</b> , Intertwining relations and extended eigenvalues for analytic Toeplitz operators.....	1007
<b>Stephanie Alexander, Vitali Kapovitch and Anton Petrunin</b> , An optimal lower curvature bound for convex hypersurfaces in Riemannian manifolds.....	1031
<b>Janina Kotus and Mariusz Urbański</b> , Hausdorff dimension of radial and escaping points for transcendental meromorphic functions.....	1035
<b>Wiesław Pawłucki</b> , Lipschitz cell decomposition in o-minimal structures I.....	1045
