

ILLINOIS JOURNAL OF MATHEMATICS

Volume 53, Number 3

Fall 2009

Bhanumati Dasgupta , Hermitian Morita equivalences between maximal orders in central simple algebras.....	723
Volodymyr Mazorchuk and Vanessa Miemietz , Idempotent subquotients of symmetric quasi-hereditary algebras	737
S. Mouton , Mapping and continuity properties of the boundary spectrum in Banach algebras.....	757
Dominic Lanphier and Jason Rosenhouse , Cheeger constants of arithmetic hyperbolic 3-manifolds	769
Christoph Aistleitner , Diophantine equations and the LIL for the discrepancy of sublacunary sequences	785
R. Göbel and B. Goldsmith , The maximal pure spectrum of an Abelian group	817
Siddique Khan , A minimal lamination of the unit ball with singularities along a line segment	833
Bingzhe Hou, Geng Tian and Luoyi Shi , Some dynamical properties for linear operators	857
Michael C. R. Johnson , Convergence of polynomial ergodic averages of several variables for some commuting transformations	865
Wladimir de Azevedo Pribitkin , Poincaré series and Eichler integrals.....	883
Abdellatif Bourhim and María Burgos , Linear maps preserving regularity in C^* -algebras	899
Shawn Drenning and Robert S. Strichartz , Spectral decimation on Hambly's homogeneous hierarchical gaskets.....	915
Adam Coffman , CR singularities of real fourfolds in \mathbb{C}^3	939
