

Illinois Journal of Mathematics

Volume 67 | Number 2 | June 2023

- 203 **Subsets of rectifiable curves in Banach spaces I: Sharp exponents in traveling salesman theorems**
Matthew Badger and Sean McCurdy
- 275 **Subsets of rectifiable curves in Banach spaces II: Universal estimates for almost flat arcs**
Matthew Badger and Sean McCurdy
- 333 **Prime power order circulant determinants**
Michael J. Mossinghoff and Christopher Pinner
- 363 **Banach space representations of Drinfeld–Jimbo algebras and their complex-analytic forms**
O. Yu. Aristov
- 383 **The homotopy Lie algebra of a Tor-independent tensor product**
Luigi Ferraro, Mohsen Gheibi, David A. Jorgensen, Nicholas Packauskas, and Josh Pollitz
- 409 **Lipschitz metric isometries between outer spaces of virtually free groups**
Rylee Alanza Lyman
