

JOURNAL OF COMMUTATIVE ALGEBRA

Volume 5

WINTER 2013

Number 4

CONTENTS

Indecomposable injective modules of finite Malcev rank over local commutative rings By FRANÇOIS COUCHOT	481
Muhly local domains and Zariski's theory of complete ideals By RAYMOND DEBREMAEKER	507
Commutative rings whose prime ideals are radically perfect By V. ERDOĞDU AND S. HARMAN	527
A constructive theory of minimal zero-dimensional extensions By FRED RICHMAN	545
When is the complement of the zero-divisor graph of a commutative ring planar? By S. VISWESWARAN	567
Index	603
