

# JOURNAL OF COMMUTATIVE ALGEBRA

Volume 16

2024

Number 3

---

|   |     |
|---|-----|
| High powers in endomorphism rings over Dedekind domains<br>ALEXANDRU CHIRVĂSITU .....                             | 257 |
| Minimal equations for matrix Schubert varieties<br>SHILIANG GAO AND ALEXANDER YONG .....                          | 267 |
| G-stable rank of symmetric tensors and log canonical threshold<br>ZHI JIANG .....                                 | 275 |
| An algebraic characterization of the affine three space in arbitrary characteristic<br>P. M. S. SAI KRISHNA ..... | 293 |
| Ring structure of integer-valued rational functions<br>BAIAN LIU .....  | 305 |
| Subatomicity in rank-2 lattice monoids<br>CAROLINE LIU, PEDRO RODRÍGUEZ AND MARCOS TIRADOR .....                  | 337 |
| Numerical aspects of complexes of finite homological dimensions<br>MAJID RAHRO ZARGAR AND MOHSEN GHEIBI .....     | 353 |
| The perfection can be a noncoherent GCD domain<br>AUSTYN SIMPSON .....  | 363 |
| Componentwise linearity under square-free Gröbner degenerations<br>HONGMIAO YU .....                              | 369 |
