Friction mediated by transient elastic linkages: extension to loads of bounded variation SAMAR ALLOUCH AND VUK MILIŠIĆ .....	267
A numerical algorithm for a class of nonlinear fractional Volterra integral equations via modified hat functions JAFAR BIAZAR AND HAMED EBRAHIMI .....	295
Positivity of a weakly singular operator and approximation of wave scattering from the sphere DUGALD B. DUNCAN .....	317
Optimal stability for a viscoelastic neutral differential problem JAMILU HASHIM HASSAN AND NASSER-EDDINE TATAR .....	335
Stability conditions for a mixed linear Levin–Nohel integrodifferential system MOUATAZ BILLAH MESMOULI, ABDELOUAHEB ARDJOUNI AND AHCÈNE DJOUDI .....	349
Existence and asymptotic stability for lattice stochastic integrodifferential equations with infinite delays NGUYỄN NHƯ QUÂN .....	357
Well-posedness of Tricomi–Gellerstedt–Keldysh-type fractional elliptic problems MICHAEL RUZHANSKY, BERIKBOL T. TOREBEK AND BATIRKHAN TURMETOV .....	373
