

JOURNAL OF INTEGRAL  
EQUATIONS AND APPLICATIONS

Volume 11

FALL 1999

Number 3

---

CONTENTS

|   |     |
|---|-----|
| A New Integral Equation Formulation for the<br>Scattering of Plane Elastic Waves<br>by Diffraction Gratings<br>By T. ARENS .....                      | 275 |
| Attracting Solutions of Nonlinear Volterra<br>Integral Equations<br>By MARIANO R. ARIAS AND JESÚS M.F. CASTILLO .....                                 | 299 |
| Existence of Solutions for a Class of<br>Integrodifferential Equations in Banach Spaces<br>By FANGQI CHEN .....                                       | 309 |
| Stability of Approximation Methods on<br>Locally Non-Equidistant Meshes<br>for Singular Integral Equations<br>By V.D. DIDENKO AND B. SILBERMANN ..... | 317 |
| Operator Norms of Powers of the Volterra Operator<br>By D. KERSHAW .....  | 351 |
| On the Analyticity of the Cauchy Integral<br>in Schauder Spaces<br>By MASSIMO LANZA DE CRISTOFORIS AND<br>LUCA PRECISO .....                          | 363 |
| Constructive Analysis of Purely Integral<br>Boltzmann Models<br>By ALVISE SOMMARIVA AND MARCO VIANELLO .....  | 393 |
| Initial Value Problems for Nonlinear Second<br>Order Impulsive Integro-Differential<br>Equations in Banach Spaces<br>By JINQING ZHANG .....           | 405 |
