

JOURNAL OF INTEGRAL
EQUATIONS AND APPLICATIONS

Volume 2

Summer 1990

Number 3

CONTENTS

Dedication

By PHILIP M. ANSELONE, RICHARD K. MILLER
AND JACOB J. LEVIN 305

Dissipative boundary conditions for one-dimensional
wave propagation

By J. BIELAK AND R.C. MACCAMY 307

Global existence of smooth shearing motions
of nonlinear viscoelastic fluid

By DEBORAH BRANDON AND WILLIAM J. HRUSA 333

Parameter identification in a Volterra equation
with weakly singular kernel

By DENNIS W. BREWER AND ROBERT K. POWERS 353

Some results on nonlinear heat equations for materials
of fading memory type

By PH. CLÉMENT AND G. DA PRATO 375

Perturbation of linear abstract Volterra equations

By C. CORDUNEANU 393

Regularity properties of solutions of linear integro-
differential equations with singular kernels

By HANS ENGLER 403

On the uniqueness of solutions of Volterra equations

By GUSTAF GRIPENBERG 421

Global existence in one-dimensional nonlinear
viscoelasticity with heat conduction

By MORTON E. GURTIN AND WILLIAM J. HRUSA 431
