

JOURNAL OF INTEGRAL
EQUATIONS AND APPLICATIONS

Volume 3

SPRING 1991

Number 2

CONTENTS

Superconvergence of Modified Projection Method
for Integral Equations of the Second Kind
By M. THAMBAN NAIR AND R.S. ANDERSSSEN 255

An Application of Finite Hilbert Transforms
in the Derivation of a State Space Model
for an Aeroelastic System
By TERRY L. HERDMAN AND JANOS TURI 271

Probabilistic Analysis of Numerical Methods
for Integral Equations
By STEFAN HEINRICH 289

Forced Vibrations in One-Dimensional
Nonlinear Viscoelasticity
By EDUARD FEIREISL 321

About the Equation $K * u^2 = u$
By JEAN-BERNARD BAILLON AND MICHEL THÉRA 343
