

JOURNAL OF INTEGRAL
EQUATIONS AND APPLICATIONS

Volume 21

FALL 2009

Number 3

CONTENTS

- JIEA: A special Issue for the UKBIM6 Meeting
By I. G. GRAHAM, J. TREVELYAN
AND S. N. CHANDLER-WILDE 329
- Recompression techniques for adaptive cross approximation
By M. BEBENDORF AND S. KUNIS 331
- A note on the polynomial approximation of vertex singularities
in the boundary element method in three dimensions
By A. BESPALOV 359
- The method of fundamental solutions for detection of
cavities in EIT
By D. BORMAN, D. B. INGHAM, B. T. JOHANSSON
AND D. LESNIC 381
- Analysis of some localized boundary-domain integral equations
By O. CHKADUA, S. E. MIKHAILOV
AND D. NATROSHVILLI 405
- A numerical coordinate transformation for efficient evaluation
of oscillatory integrals over wave boundary integrals
By J. TREVELYAN AND M. E. HONNOR 447
