

JOURNAL OF INTEGRAL  
EQUATIONS AND APPLICATIONS

Volume 22

SUMMER 2010

Number 2

---

**CONTENTS**

INTRODUCTION: DEDICATION TO CHARLES W. GROETSCH  
By KENDALL ATKINSON AND PAUL MARTIN ..... 165

The determination of boundary coefficients from  
far field measurements  
By FIORALBA CAKONI, DAVID COLTON AND PETER MONK. 167

Electrical impedance tomography with point electrodes  
By FABRICE DELBARY AND RAINER KRESS ..... 193

Regularization of ill-posed linear equations by the non-  
stationary augmented Lagrangian method  
By KLAUS FRICK AND OTMAR SCHERZER ..... 217

The regularizing Levenberg-Marquardt scheme is of  
optimal order  
By MARTIN HANKE ..... 259

Error bounds for spectral enhancement which are based on  
variable Hilbert scale inequalities  
By MARKUS HEGLAND ..... 285

A convergence analysis of the midpoint rule for first kind  
Volterra integral equations with noisy data  
By B. KALTENBACHER ..... 313

Modified Tikhonov regularization for nonlinear ill-posed problems  
in Banach spaces  
By ANDREAS NEUBAUER ..... 341
