

JOURNAL OF INTEGRAL  
EQUATIONS AND APPLICATIONS

Volume 22

FALL 2010

Number 3

---

CONTENTS

INTRODUCTION: DEDICATION TO CHARLES W. GROETSCH By KENDALL ATKINSON AND PAUL MARTIN .....	353
Derivative spectroscopy—An enhanced role for numerical differentiation By R.S. ANDERSSEN AND M. HEGLAND .....	355
An extension of the variational inequality approach for obtaining convergence rates in regularization of nonlinear ill-posed problems By RADU IOAN BOTĂ AND BERND HOFMANN .....	369
Local regularization of nonlinear Volterra equations of Hammerstein type By CARA D. BROOKS, PATRICIA K. LAMM AND XIAOYUE LUO .....	393
Kernel perturbations for Volterra convolution integral equations By F.R. DE HOOG AND R.S. ANDERSSEN .....	427
An integro-differential equation model for the spread of alcohol abuse By DONALD A. FRENCH, ZEYNEP TEYMUR oglu, TIMOTHY J. LEWIS AND RICHARD J. BRAUN .....	443
An iterative method for Tikhonov regularization with a general linear regularization operator By MICHAEL E. HOCHSTENBACH AND LOTHAR REICHEL ...	465
On the generalized discrepancy principle for Tikhonov regularization in Hilbert scales By S. LU, S.V. PEREVERZEV, Y. SHAO AND U. TAUTENHahn .....	483
Robust GCV choice of the regularization parameter for correlated data By MARK A. LUKAS .....	519
