

CONTENTS

Well-conditioned boundary integral equations for two-
dimensional sound-hard scattering problems in
domains with corners
By AKASH ANAND, JEFF OVALL AND
CATALIN TURC 321

Discrete superconvergence of collocation solutions for
first-kind Volterra integral equations
By HUI LIANG AND HERMANN BRUNNER 359

Compactness of linear integral operators in ideal spaces
of vector functions
By MARTIN VÄTH 393

Tractability of the Fredholm problem of the second kind
By A.G. WERSCHULZ AND H. WOŹNIAKOWSKI 413
