

CONTENTS

On a Bohr-Neugebauer property for some almost
automorphic abstract delay equations
By RACHID BENKHALTI, BRAHIM ES-SEBBAR
AND KHALIL EZZINBI 313

Uniform exponential stability and applications to
bounded solutions of integro-differential equations
in Banach spaces
By YONG-KUI CHANG AND RODRIGO PONCE 347

A note on the well-posedness of terminal value prob-
lems for fractional differential equations
By KAI DIETHELM AND NEVILLE J. FORD 371

Energy decay rates for solutions of the Kirchhoff type
wave equation with boundary damping and source
terms
By TAE GAB HA 377

Solvability of linear boundary value problems for
subdiffusion equations with memory
By MYKOLA KRASNOSCHOK, VITTORINO PATA
AND NATALIYA VASYLYEVA 417

Numerical solutions of a class of singular neutral
functional differential equations on graded meshes
By PEDRO PEREZ-NAGERA AND JANOS TURI 447
