

CONTENTS

| | |
|--|-----|
| HideO TAMURA , The asymptotic formulas for the number of bound states in the strong coupling limit | 355 |
| Antonio Carlos ASPERTI , Minimal surfaces with constant normal curvature | 375 |
| Takashi KOMATSU , Pseudo-differential operators and Markov processes | 387 |
| Takao YAMAGUCHI , A pinching problem for symmetric spaces of rank one | 419 |
| Antonio ROS , On spectral geometry of Kaehler submanifolds | 433 |
| Hidetoshi TAHARA , Singular hyperbolic systems, V. Asymptotic expansions for Fuchsian hyperbolic partial differential equations | 449 |
| Yoshihiro MIZUTA , On the behavior at infinity of logarithmic potentials | 475 |
| Sadayoshi KOJIMA , A construction of geometric structures on Seifert bered spaces ... | 483 |
| Ryuichi MIZUMACHI , On the asymptotic behavior of incompressible viscous uid motions past bodies | 497 |
| Miyuki KOISO , On the stability of minimal surfaces in R^3 | 523 |
