

CONTENTS

Hiro-o YAMAMOTO , Squeezing deformations in Schottky spaces	227
Ryozo MORIKAWA , On units of real quadratic number elds	245
Norio EJIRI , Compact minimal submanifolds of a sphere with positive Ricci curvature ..	251
Marie CHODA , A characterization of crossed products of factors by discrete outer automorphism groups	257
Takemi MIZOKAMI , Metacompactness and subparacompactness of product spaces	263
Hidenori ISHII , The non-existence of elliptic curves with everywhere good reduction over certain imaginary quadratic elds	273
Takeyoshi SATO , Comparison theorems for Banach spaces of solutions of $u = Pu$ on Riemann surfaces	281
Yoichi MIYASHITA , On a skew polynomial ring	317
Toshihiko MATSUKI , The orbits of ane symmetric spaces under the action of minimal parabolic subgroups	331
Michihiko KAWAMURA , On a conjecture of Nakai on Picard principle	359
Yasushi MIYAHARA , On relations between conformal mappings and isomorphisms of spaces of analytic functions on Riemann surfaces	373
Tsugunori NOGURA , The subsequentiality of product spaces	391
Hiroyuki YOSHIDA , Weil's representations of the symplectic groups over nite elds*)	399
