

CONTENTS

Yoshikazu KATAYAMA , Remarks on conditional expectations in von Neumann algebra	1
Yoichi MIYASHITA , Non-singular bilinear maps which come from some positively ltered rings	7
Kazuo TANIGUCHI , An elementary proof of the generalized form of Poincaré's inequality	15
Shigeru ITOH, Wataru TAKAHASHI and Kenjiro YANAGI , Variational inequalities and complementarity problems	23
Toshihiko YAMADA , Induced characters of some 2-groups	29
Mitsuhiro ITOH , On curvature properties of Kähler C-spaces	39
Takehiro ITOH , Addendum to my paper "On Veronese manifolds"	73
Athanassios G. KARTSATOS , Perturbations of M -accretive operators and quasi-linear evolution equations	75
Yosio MUTO , The Gauss map of a submanifold in a Euclidean space	85
Yukihiro KODAMA , Fine movability	101
Toshio OSHIMA , A realization of Riemannian symmetric spaces	117
Hiroshi FUKUSHIMA , Weakly closed cyclic 2-groups in finite groups	133
Takuro SHINTANI , On certain ray class invariants of real quadratic fields	139
Tosio KATO and Kyuya MASUDA , Trotter's product formula for nonlinear semigroups generated by the subdifferentials of convex functionals	169
