

CONTENTS

Kimio KAZI , On the ϵ -entropy of stable processes	181
Tominosuke OTSUKI , On a bound for periods of solutions of a certain nonlinear differential equation (I)	206
Koji KATAYAMA , Ramanujan's formulas for L -functions	234
Masakazu SUZUKI , Propriétés topologiques des polynômes de deux variables complexes, et automorphismes algébriques de l'espace C^2	241
Shukichi TANNO , Riemannian manifolds of nullity index zero and curvature tensor-preserving transformations	258
Hirotsuka FUJIMOTO , On meromorphic maps into the complex projective space	272
Zen-ichi YOSIMURA , A note on complex K -theory of infinite CW -complexes	289
Takao SASAI , Monodromy representations of homology of certain elliptic surfaces	296
Yoichi MOTOHASHI , On some improvements of the Brun-Titchmarsh theorem	306
Koji SHIGA , Cohomology of Lie algebras over a manifold, I	324
Taira HONDA and Isao MIYAWAKI , Zeta-functions of elliptic curves of 2-power conductor	362
Hideo SHIMIZU , A correction to "Theta series and automorphic forms on GL_2 "	374
