

CONTENTS

Yukimasa OKA , Uniformly hyperfinite algebras and locally compact transformation groups	357
Iku NAKAMURA and Kenji UENO , An addition formula for Kodaira dimensions of analytic vector bundles whose bases are Moisèzon manifolds	363
Eiji HORIKAWA , On deformations of holomorphic maps I	372
Shizuo ENDO and Takehiko MIYATA , Quasi-permutation modules over finite groups	397
Hirohiko SHIMA , On homogeneous Kähler manifolds of solvable Lie groups	422
Jiro WATANABE , On certain nonlinear evolution equations	446
Michihiro NAGASE , On the asymptotic behavior of resolvent kernels for elliptic operators	464
Yoichi MOTOHASHI , On the representations of an integer as a sum of two squares and a product of four factors	475
Sadahiro SAEKI , On restriction algebras of tensor algebras	506
Goro SHIMURA , On the factors of the jacobian variety of a modular function field	523
Koji KATAYAMA , A supplement to my paper "On zeta-theta functions"	545
