

CONTENTS

Hiroshi KIMURA , On some doubly transitive permutation groups of degree n and order $2^l(n-1)n$	263
Makiko NISIO , On stochastic differential equations associated with certain quasilinear parabolic equations	278
Norio ADACHI , On the imbedding problem of Galois extensions	293
Norio ADACHI , On the relatively cyclic imbedding problem with given local behavior ..	298
Mariko YASUGI , Cut elimination theorem for second order arithmetic with the $\frac{1}{1}$ -comprehension axiom and the ω -rule	308
Shigeo ICHIRAKU , Abstract homotopy neighborhoods and Hauptvermutung	325
Takashi TASAKA , Remarks on the validity of Hasse's norm theorem	330
Hisao NAKAGAWA and Katsuhiro SHIOHAMA , On the totally geodesic submanifolds in locally symmetric spaces	342
Von Sige-Nobu KURODA , Idealgruppen und Dirichletsche Reihen in algebraischen Zahlkörpern	353
Hiroshi KIMURA and Hiroyoshi YAMAKI , Some class of doubly transitive groups of degree n and order $4q(n-1)n$ where q is an odd number	388
Tsunero TAKAHASHI , Homogeneous hypersurfaces in spaces of constant curvature ...	395
Robert H. MARTIN and Jr , The logarithmic derivative and equations of evolution in a Banach space	411
