

CONTENTS

Mariko YASUGI , Intuitionistic analysis and Gödel's interpretation	101
J. LAMPERTI and J. L. SNELL , Martin boundaries for certain Markov chains	113
Raymond M. SMULLYAN , Pseudo-uniform reducibility	129
par Costake TELEMAN , Sur les groupes des mouvements d'un espace de Riemann	134
Hiroaki HIJIKATA , A remark on the groups of type G_2 and F_4	159
Hiroaki HIJIKATA , Hasse's principle on quaternionic anti-hermitian forms	165
Gaisi TAKEUTI and Akiko KINO , On predicates with constructive innitely long expressions	176
Noriyuki SONE , Univalent functions and non-convex domains	191
Koichi SAKAGUCHI , A representation theorem for a certain class of regular functions .	202
Ichiro SATAKE , On the theory of reductive algebraic groups over a perfect eld	210
