

CONTENTS

| | |
|--|-----|
| Yukiyosi KAWADA , On some properties of covering groups of a topological group. | 203 |
| Noboru Matsuyama , On the jump of a function and its Fourier series. Notes on Fourier Analysis (XXXIII) | 212 |
| Ryoji Shizuma , Homotopy Properties of Fibre Bundles | 219 |
| Koichi YAMAMOTO , An Asymptotic Series for the Number of Three-Line Latin Rectangles | 226 |
| Kotaro Okugawa , Base conditions for hypersurfaces at a point. | 242 |
| Tominosuke Otsuki , On Projectively Connected Spaces whose Groups of Holonomy Fix a Hyperquadric | 251 |
| Yozo MATSUSHIMA , On the decomposition of an (L)-group | 264 |
| Kiyoshi Noshiro , Note on the Cluster Sets of Analytic Functions. | 275 |
| MASATSUGU TSUJI , On removable singularities of an analytic function of several complex variables. | 282 |
| KENTARO YANO and TYIUTI IMAI , On ane collineations in projectively related spaces. | 287 |
