## VOL. 38 NO. 4

## OCTOBER, 1986

## CONTENTS

<b>Keisuke KIKUCHI</b> , The existence and uniqueness of nonstationary ideal incompressible ow in exterior domains in $\mathbb{R}^3$	575
Ken YAMAMURA, On innite unramied Galois extensions of algebraic number elds with many primes decomposing almost completely	599
Takahiko NAKAZI, Kernels of Toeplitz operators	607
TomiO UMEDA, Smooth perturbations in ordered Banach spaces and similarity for the linear transport operators	617
Kazuo AZUKAWA, Two intrinsic pseudo-metrics with pseudoconvex indicatrices and star-like circular domains	627
Ken-ichi SHIOTA, On the explicit models of Shimura's elliptic curves	649
Fuichi UCHIDA, Real analytic actions of complex symplectic groups and other classical Lie groups on spheres	661
Ken-iti SATO, Behavior of modes of a class of processes with independent increments	679
Takashi ITO and Chie NARA, Quasi-arithmetic means of continuous functions	697
Hiroakira ONO and Noriya KADOTA, Provably recursive functions in fragments of Peano arithmetic	721
<b>Tsuyoshi KAJIWARA</b> , Traces on group extensions and $C^*$ -crossed products	739
