

# NOTRE DAME JOURNAL OF FORMAL LOGIC

VOLUME 35, 1994

## VOLUME CONTENTS

<b>Andréka, Hajnal</b>	
Representations for small relation algebras (with Roger D. Maddux) . . . . .	550–562
<b>Antonelli, Gian Aldo</b>	
The complexity of revision . . . . .	67–72
<b>Antonelli, Gian Aldo</b>	
A revision-theoretic analysis of the arithmetical hierarchy . . . . .	204–218
<b>Aoyama, Hiroshi</b>	
The strong completeness of a system based on Kleene’s strong three-valued logic . . . . .	355–368
<b>Auerbach, David</b>	
Saying it with numerals . . . . .	130–146
<b>Belnap, Nuel</b>	
Reply to Robert Koons (with Anil Gupta) . . . . .	632–636
<b>Cerrato, Claudio</b>	
Natural deduction based upon strict implication for normal modal logics . . .	471–495
<b>Chartrand, R.</b>	
Deissler rank complexity of powers of indecomposable injective modules (with T. Kucera) . . . . .	398–402
<b>Cintioli, P.</b>	
$\Sigma_1^1$ -completeness of a fragment of the theory of trees with subtree relation (with S. Tulipani) . . . . .	426–432
<b>D’Agostino, Giovanna</b>	
Topological structure of diagonalizable algebras and corresponding logical properties of theories . . . . .	563–572
<b>Damnjanovic, Zlatan</b>	
Elementary functions and loop programs . . . . .	496–522
<b>Dore, Clement</b>	
Book Review: <i>Logic and Other Nonsense: The Case of Anselm     and His God</i> by Ermanno Bencivenga . . . . .	464–468
<b>Font, Josep Maria</b>	
Algebraic study of two deductive systems of relevance logic (with Gonzalo Rodríguez) . . . . .	369–397
<b>Gupta, Anil</b>	
Reply to Robert Koons (with Nuel Belnap) . . . . .	632–636
<b>Halbach, Volker</b>	
A system of complete and consistent truth . . . . .	311–327
