AUTHOR INDEX VI

VOLUMES 31–35 (1990–1994)

This author index gives a complete listing of articles published in Volumes 31–35 of the *Notre Dame Journal of Formal Logic*. Multiple entries by a single author are listed chronologically.

Abian, Alexander

An equivalent of the axiom of choice in finite models
of the powerset axiom (*with Wael A. Amin*) **31** 371–374

Abian, Alexander

The cardinality of powersets in finite models of the
powerset axiom (*with Wael A. Amin*) **32** 290–293

Adams, Ernest

Formalizing the logic of positive, comparative, and superlative **34** 90–99

Adams, M. E.

A note on the axiomatization of equational classes of n -valued
Łukasiewicz algebras (*with R. Cignoli*) **31** 304–307

Africk, Henry

Classical logic, intuitionistic logic, and the Peirce rule **33** 229–235

Akama, Seiki

The Gentzen-Kripke construction of the intermediate logic LQ **33** 148–153

Amin, Wael A.

An equivalent of the axiom of choice in finite models
of the powerset axiom (*with Alexander Abian*) **31** 371–374

Amin, Wael A.

The cardinality of powersets in finite models of the
powerset axiom (*with Alexander Abian*) **32** 290–293

Andréka, Hajnal

Representations for small relation algebras (*with Roger D. Maddux*) . **35** 550–562

Antonelli, Gian Aldo

The complexity of revision **35** 67–72

Antonelli, Gian Aldo

A revision-theoretic analysis of the arithmetical hierarchy **35** 204–218

Aoyama, Hiroshi

The strong completeness of a system based on Kleene's strong
three-valued logic **35** 355–368

Arai, Toshiyasu

Derivability conditions on Rosser's provability predicates **31** 487–497
