

# NAGOYA MATHEMATICAL JOURNAL

Volume 199

September 2010

## CONTENTS

---

<b>Yao, G.:</b> Existence of extremal Beltrami coefficients with nonconstant modulus . . . . .	1
<b>De Medts, T., and Weiss, R. M.:</b> The norm of a Ree group	15
<b>Calabri, A., and Ciliberto, C.:</b> Birational classification of curves on rational surfaces . . . . .	43
<b>Goto, S., and Ozeki, K.:</b> Buchsbaumness in local rings possessing constant first Hilbert coefficients of parameters . . . . .	95
<b>Tsuji, H.:</b> Dynamical construction of Kähler-Einstein metrics	107
<b>Colombo, E., and Frediani, P.:</b> On the second Gaussian map for curves on a K3 surface . . . . .	123
<b>Chan, H.:</b> Topological uniqueness of negatively curved surfaces	137
<b>Xu, G., and Yin, H.:</b> Instability of one global transonic shock wave for the steady supersonic Euler flow past a sharp cone . . . . .	151
