

PROCEEDINGS OF THE JAPAN ACADEMY

SERIES A MATHEMATICAL SCIENCES

CONTENTS

Papers Communicated:—

	Page
H. MORIMOTO: A Theory of Infinite Dimensional Cycles for Dirac Operators	67
T. NAMBU: Strong Continuity of the Solution to the Ljapunov Equation $XL-BX=C$ Relative to an Elliptic Operator L	70
T. SUZUKI and K. NAGASAKI: Asymptotic Behavior of the Solution for an Elliptic Boundary Value Problem with Exponential Non-linearity	74
N. KOMURO: Convex Operators and Convex Integrands	77
T. OHE and M. YAMAMOTO: On the Exponentially Asymptotic Stability of a Perturbed Nonlinear System	81
M. NUNOKAWA and S. OWA: Notes on Certain Analytic Functions	85
Proceedings at the 827th General Meeting	V
