

# Pacific Journal of Mathematics

<b>J. Almeida</b> , Minimal non-permutative pseudovarieties of semigroups. I . . . . .	257
<b>J. Almeida</b> , Minimal non-permutative pseudovarieties of semigroups. II . . . . .	271
<b>C. Andradás and J. M. Gamboa</b> , On projections of real algebraic varieties . . . . .	281
<b>Z. Ditzian</b> , Inverse theorems for multidimensional Bernstein operators . . . . .	293
<b>M. Furi and M. P. Pera</b> , A continuation principle for forced oscillations on differentiable manifolds . . . . .	321
<b>J. J. Hebda</b> , The collars of a Riemannian manifold and stable isosystolic inequalities . . . . .	339
<b>H. Hecht and D. Miličić</b> , Character identities and asymptotic behavior of matrix coefficients of discrete series . . . . .	357
<b>P. Jakóbczak</b> , The boundary regularity of the solution of the $\bar{\partial}$ -equation in the product of strictly pseudoconvex domains . . . . .	371
<b>K. Jarosz</b> , Isometries between injective tensor products of Banach spaces . . . . .	383
<b>H. A. Keller</b> , On valued, complete fields and their automorphisms . . . . .	397
<b>D. W. Masser and P. Shiu</b> , On sparsely totient numbers . . . . .	407
<b>T. B. Ng</b> , Vector bundles over $(8k + 3)$ -dimensional manifolds . . . . .	427
<b>T. J. Ransford</b> , The spectrum of an interpolated operator and analytic multivalued functions . . . . .	445
<b>A. Uchiyama</b> , On the radial maximal function of distributions . . . . .	467
<b>J.-M. Wu</b> , On singularity of harmonic measure in space . . . . .	485
