✻ ERRATA, Volumes 5 and 6 ✻

5 p. 346 Instead of choosing $Q^{(i)}$ as any extreme point of $\hat{K}_i$, take it to be a support point of $\hat{K}_i$ (that is, a point of $\hat{K}_i$ through which passes a supporting hyperplane of $\hat{K}_i$ containing no other point of $\hat{K}_i$).

5 p. 866 In § 4 assume $\mu(s) < \infty$

6 p. 117 The references [9] and [10] regarding the two papers by L. J. Mordell occurred erroneously and represent a misquotation.
