

# Pacific Journal of Mathematics

## IN THIS ISSUE—

Ankeny, N. C. and Chowla S., <i>On the divisibility of the class number of quadratic fields</i> .....	321
Burgess, C. E., <i>Collections and sequences of continua in the plane</i> .....	325
Cronin, Jane, <i>The Dirichlet problem for nonlinear elliptic equations</i> .....	335
Dvoretzky, Aryeh, <i>A converse of Helly's theorem on convex sets</i> .....	345
Grünbaum, B., <i>On a theorem of L. A. Santaló</i> .....	351
Shimrat, Moshe, <i>Simple proof of a theorem of P. Kirchberger</i> .....	361
Rabin, Michael, <i>A note on Helly's theorem</i> .....	363
Edwards, R. E., <i>On factor functions</i> .....	367
Edwards, R. E., <i>On certain algebras of measures</i> .....	379
Flanders, Harley, <i>Methods in affine connection theory</i> .....	391
Huber, Alfred, <i>The reflection principle for polyharmonic functions</i> ....	433
Ludford, G. S. S., <i>Generalised Riemann invariants</i> .....	441
Selfridge, R. G., <i>Generalized Walsh transform</i> .....	451-480

Vol. 5, No. 3

September, 1955
