

Pacific Journal of Mathematics

IN THIS ISSUE—

Alder, Henry L., <i>Generalizations of the Rogers-Ramanujan identities</i>	161
Beesley, E. M., <i>Concerning total differentiability of functions of class P</i>	169
Carlitz, L., <i>The number of solutions of some special equations in a finite field</i>	207
Hall, Jr., Marshall, <i>On a theorem of Jordan</i>	219
Hill, J. D., <i>Remarks on the Borel property</i>	227
Lehner, Joseph, <i>Note on the Schwarz triangle functions</i>	243
Livingston, Arthur E., <i>A generalization of an inequality due to Beurling</i>	251
Reich, Edgar, <i>An inequality for subordinate analytic functions</i>	259
Scholz, D. R., <i>Some minimum problems in the theory of functions</i>	275
Shepherdson, J. C., <i>On two problems of Kurepa</i>	301
Wald, A., <i>Congruent imbedding in F-metric spaces</i>	305
Walker, Gordon L., <i>Fermat's theorem for algebras</i>	317

Vol. 4, No. 2

June, 1954
