

Pacific Journal of Mathematics

Y. A. Abramovich , Operators preserving disjointness on rearrangement invariant spaces	201
A. Acker and K. Lancaster , Existence and geometry of a free boundary problem for the heat equation	207
S.-C. Chen , Real analytic regularity of the Szegő projection on circular domains	225
C.-L. Chuang , An independence property of central polynomials	237
P. L. Duren and M. M. Schiffer , Robin functions and energy functionals of multiply connected domains	251
J. H. B. Kemperman , Sets of uniqueness and systems of inequalities having a unique solution	275
K.-L. Kueh , Fourier coefficients of non-holomorphic modular forms and sums of Kloosterman sums	303
G. J. Murphy , Ordered groups and crossed products of C^* -algebras	319
Y.-Q. Wang , The p -parts of Brauer character degrees in p -solvable groups	351
H. Yoshida , Harmonic majorization of a subharmonic function on a cone or on a cylinder	369
