

# Pacific Journal of Mathematics

<b>E. Akyildiz</b> , Gysin homomorphism and Schubert calculus . . . . .	257
<b>M. Breen</b> , Clear visibility and unions of two starshaped sets in the plane . . . . .	267
<b>R. F. Brown</b> , Retraction methods in Nielsen fixed point theory . . . . .	277
<b>H. Busemann and B. B. Phadke</b> , A general version of Beltrami's Theorem in the large . . . . .	299
<b>G. A. Edgar and R. F. Wheeler</b> , Topological properties of Banach spaces . . . . .	317
<b>Y. Friedman and B. Russo</b> , Conditional expectation without order . . . . .	351
<b>R. Goggins</b> , Cobordism of manifolds with strong almost tangent structures . . . . .	361
<b>M. Hoffman</b> , Noncoincidence index of manifolds . . . . .	373
<b>W. Julian</b> , $\epsilon$ -continuity and monotone operations . . . . .	385
<b>G. Ladas, Y. G. Sficas and I. P. Stavroulakis</b> , Nonoscillatory functional differential equations . . . . .	391
<b>A. W. Miller and K. Prikry</b> , When the continuum has cofinality $\omega_1$ . . . . .	399
<b>J. Mohrherr</b> , Density of a final segment of the truth-table degrees . . . . .	409
<b>C. N. Mutchler</b> , The flat Cauchy problem for radially hyperbolic operators from a characteristic manifold of high codimension . . . . .	421
<b>K. Nakagawa</b> , On the orders of automorphisms of a closed Riemann surface . . . . .	435
<b>W. Ricker</b> , Representation of vector-valued functions by Laplace transforms . . . . .	445
<b>J. D. Samur</b> , On semigroups of convolution operators in Hilbert space . . . . .	463
<b>J. G. Stampfli</b> , One-dimensional perturbations of operators . . . . .	481
<b>Errata</b> . . . . .	493
