

Sumari

Articles

P. Piersanti, P. Pucci , Entire solutions for critical p -fractional Hardy Schrödinger Kirchhoff equations	3–36
D. Kosz , On relations between weak and strong type inequalities for maximal operators on non-doubling metric measure spaces ...	37–54
Z. Błaszczyk, M. Kaluba , Effective topological complexity of spaces with symmetries	55–74
A. Osękowski , Weighted square function inequalities	75–94
J. F. da Silva, H. F. de Lima, M. A. L. Velásquez , Stability of generalized linear Weingarten hypersurfaces immersed in the Euclidean space	95–111
C. A. Buzzi, T. Carvalho, R. D. Euzébio , On Poincaré–Bendixson Theorem and non-trivial minimal sets in planar non-smooth vector fields	113–131
P. Hagelstein, I. Parisis , Weighted Solyanik estimates for the strong maximal function	133–159
J. Azzam , Tangents, rectifiability, and corkscrew domains	161–176
M. V. Melián, J. M. Rodríguez, E. Tourís , On the exponent of convergence of negatively curved manifolds without Green’s function	177–183
M. A. Marcos , A trace theorem for Besov functions in spaces of homogeneous type	185–211
A. Rutkowski , The Dirichlet problem for nonlocal Lévy-type operators	213–251
G. M. Bergman , Strong inner inverses in endomorphism rings of vector spaces	253–284
X. Wang, W. Chu , Infinite series identities involving quadratic and cubic harmonic numbers	285–300
